The COVID-19 Pandemic has made the lives of our patients even harder! Many of our patients are the working poor; they are working two or three jobs to support their families, yet they still can't afford health insurance. In our four county service areas, there are an estimated 88,000 individuals that could qualify to receive medications from Ozanam Charitable Pharmacy.

Last year, we were able to provide 1704 individual patients with more than 33,000 prescriptions. The retail value of that medication was \$2.9 million.

Our mission of keeping our patients connected to their life-sustaining medications builds healthy families and communities.

Please consider joining us in our work. We need your support. For your convenience, we have included a response card and envelope.

All donations to Ozanam Charitable Pharmacy are tax deductible to the full extent of the law.
